LIST OF TABLES

Tables containing updated information for the Blue Creek Application approved by OPSB for a Certificate of Environmental Compatibility and Public Need on August 23, 2010 are identified in bold italics. Other tables have not changed and are therefore not included in this application amendment.

- 3-1 Wind Turbines under Consideration for the Facility
- 3-2 *Anticipated Land Requirements for Construction and Operation of the Blue Creek Wind Farm***

- 5-1 Summary of Geotechnical Parameters for Foundation Design
- 5-2 Geologic and Geotechnical Hazards Summary
- 5-3 Relevant Water Quality Data for the Project Area

- 6-1 Cost Comparisons for Other IRI Projects

- 7-1 Ambient Air Monitoring Data near Van Wert and Paulding Counties
- 7-2 *Emission Limits Required by General Permit 4.2 for Central Ready Mix Concrete Batch Plants (Applicant’s General Contractor to purchase concrete and emissions table longer applicable)***
- 7-3 Emission Limits Required by General Permit 5.1 for Unpaved Roadways
- 7-4 Air Emissions Potentially Avoided by Operation of the Facility (assuming Ohio existing generation fleet)
- 7-5 Air Emissions Potentially Avoided by Operation of the Facility (assuming coal-fired power generation)
- 7-6 Air Emissions Potentially Avoided by Operation of the Facility (assuming natural gas-fired power generation)
- 7-7 Water-Related Permits to be Obtained

- 8-1 Populations of Communities within 5 Miles of the Facility
- 8-2 Definitions of Acoustical Terms
- 8-3 RCNM Construction Equipment Noise Levels

- 8-4 Construction Equipment Noise Levels versus Distance
- 8-5 *Summary of Predicted Facility Noise Levels (Table A-4 in Appendix T replaces Table 8-5)*
- 8-6 *Predicted Shadow Flicker*
- 8-7 *Residential Structures within 100 feet of the Facility*
- 8-8 *Residential Structures near Facility Components*
- 8-9 Land Use within 1 Mile of the Project Area
- 8-10 Local Public Services
- 8-11 Recreational Areas within a 5-Mile Radius of the Facility
- 8-12 Public Meetings and Correspondence
- 8-13 *Temporary and Permanent Impacts on the Viability of Agricultural Land*

LIST OF APPENDICES

Appendices containing updated information for the Blue Creek Application approved by OPSB for a Certificate of Environmental Compatibility and Public Need on August 23, 2010 are identified in bold italics. Other appendices have not changed and are therefore not included in this application amendment.

- A Typical O&M Building
- B Typical Drawing of Wind Turbine and Tower
- C Product Data Sheet - General Cable PC 189469
- D Typical Drawing of Support Structures
- E General Design Information for the Met Tower Foundation
- F Photo of a Typical SODAR Unit
- G Motion for Waiver
- H IRI Avian and Bat Protection Plan
- I Federal Aviation Administration Studies***
- J Visual Impact Assessment Report
- K Shadow Flicker Analysis Report***
- L Geotechnical Investigation Report***
- M Stormwater Pollution Prevention Plan***
- N Typical Drawing of Batch Plant (no longer applicable to project)
- O Typical Drawing of Substation
- P Typical Drawing of Turbine Tower Foundation
- Q Brochure of G-90 Turbine
- R Interconnect Feasibility Study
- S System Impact Study
- T Noise Analysis Report***
- U Plant Species List***
- V Wetland/Waterbody Delineation Report***
- W Agency Correspondence***
