

The email correspondence between Dave DeCaro of Iberdrola Renewables, Inc. and Rena R. Karas, Navy and Marine Corps Spectrum Center, in April and May 2009 included in this Appendix BB references the Blue Creek Project in Allen County, Indiana. The original project presented to the U.S. Navy for review included project areas in both Indiana and Ohio. Although the emails included in this Appendix reference only Indiana, the actual area reviewed by the Navy also included the Ohio portion of the project defined by the Applicant as the Blue Creek Wind Facility in Van Wert and Paulding Counties, Ohio.
